CSCI 141, Lab # 1

Fall 2013

Goal: The purpose of this lab is to get familiar with the hardware and software that we will be using all quarter, the lab room, your TA, and the sumbmission procedure for Canvas.

Due: Your program must be submitted to Canvas before midnight, Friday, October 4.

Program: Write two SCHEME procedures to print your name n times, where n is the only parameter to the procedure. Use recursion in one procedure, and a do loop in the other.

Include a comment block like the one below (with your own name and W number).

```
